Authorized Distribution States

RINOX-Midwest USA is a renowned brand in USA for Architectural Modular Railing Systems. This Brand has been established by AGS & Handrails Corp., Kansas City, MO.

Harold P. Livers, Proprietor, started his Glass Handrail business in 1984. We have been engineering, fabricating, and installing custom Stainless Steel Glass Handrail systems for 34 years. In May of 2015, we became associated with Rinox Engineering and began promoting, Stocking & selling their Modular Stainless Steel Glass Railing components.

Our distribution relationship has been very successful in the Midwest USA. We are proudly sole exclusive distributor of RINOX Engineering products for 14 States under Brand Name "RINOX-Midwest USA"

RINOX Engineering under technical Collaboration from Germany, specialized in producing premium quality stainless steel handrail and hardware for architectural applications. RINOX products are tested by TUV-Germany and meet global quality standards. RINOX is CE & ISO 9001:2015 Certified company.
